	PO4 PLASMA WC LB #167937	Start: 04/20/06	Duncan,E				pending

The interface includes a menu on the left with options like 'View Orders', 'Write Delayed Orders', and 'Write Orders'. The bottom of the window shows the Windows taskbar with the start button and several open applications including 'Inbox - Microsoft...', 'E-Term32 - [vista...', 'CPRS - Patient C...', 'ORDERING RESE...', and 'SmarTerm - [vista]'. The system clock shows 9:41 AM.

- Place orders for Investigational Drugs under the **“RESEARCH CLINIC”** location assigned to your research study. (If the research participant is an inpatient, CPRS will default to the inpatient location and you will not be prompted for this information).
- If you do not have a specific Research Clinic for your study, place order under the “Research Study” clinic location.

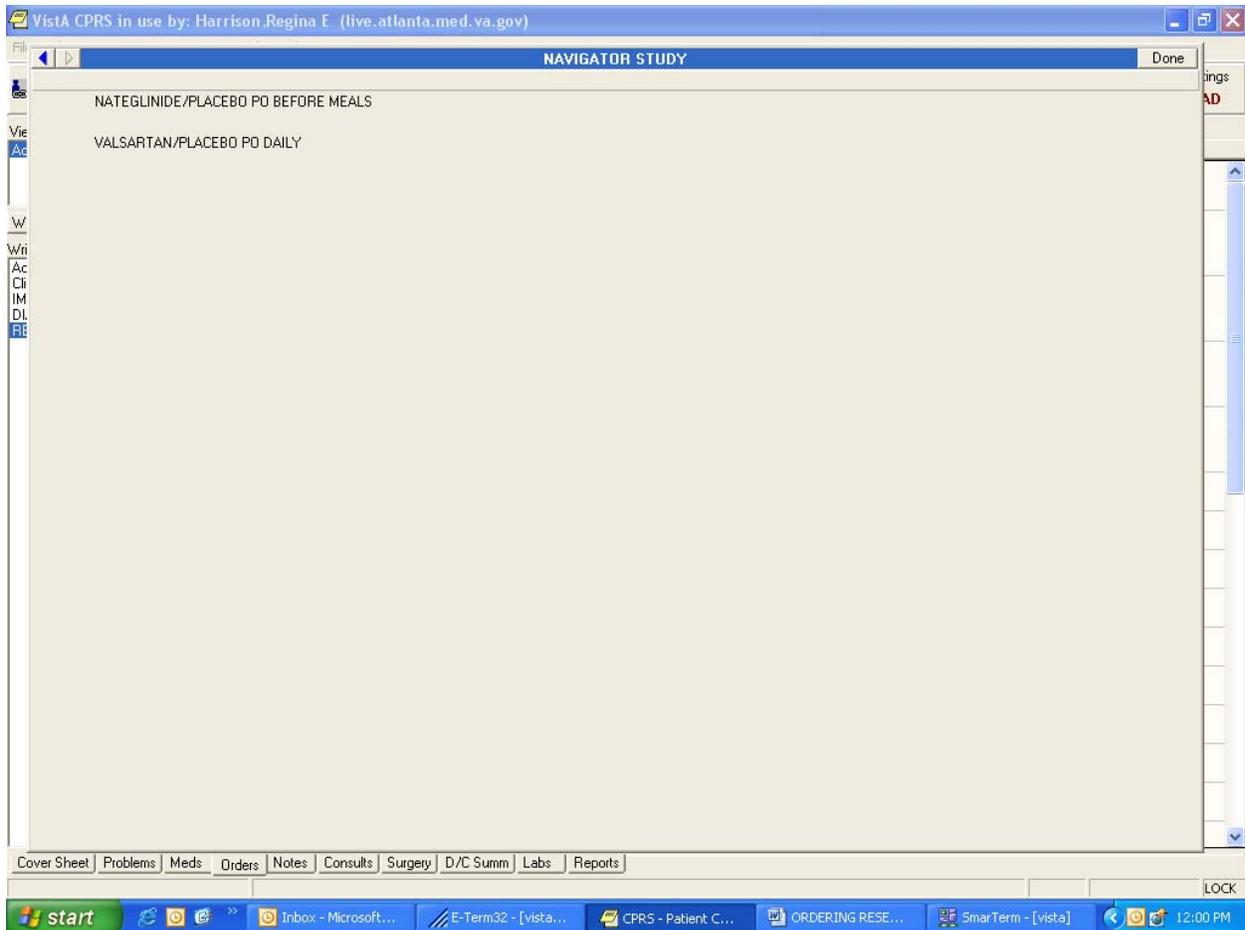

The screenshot shows the VistA CPRS interface for patient ZZPATIENT.TEST. The patient's visit is 'Visit Not Selected' at 'EAST POINT /'. The 'Active Orders' table lists several orders, including a nursing order for a mask and two orders for IMIQUIMOD 5% cream. A dialog box titled 'Location for Current Activities' is open, prompting the user to select an appointment or visit location. The dialog has tabs for 'Clinic Appointments', 'Hospital Admissions', and 'New Visit'. Under 'Clinic Appointments / Visits (T-14 thru T+60)', a list of appointments is shown, including 'Diabetes - Tuesday' and 'Research Study'.

- Click "OK" and the Research Medications Menu will display a list of research studies and their respective authorized prescribers

- Select the study from which you want to order the medication. All drugs associated with that study will be displayed.

- Select the drug you wish to order.
- If multiple medications need to be ordered, hold the control key down and select (by clicking on each one) all drugs needed.

- The order screen is now displayed for the medication. If any changes are needed in the dose or frequency, they can be made.
- If displayed information is correct, click “Accept Order.”

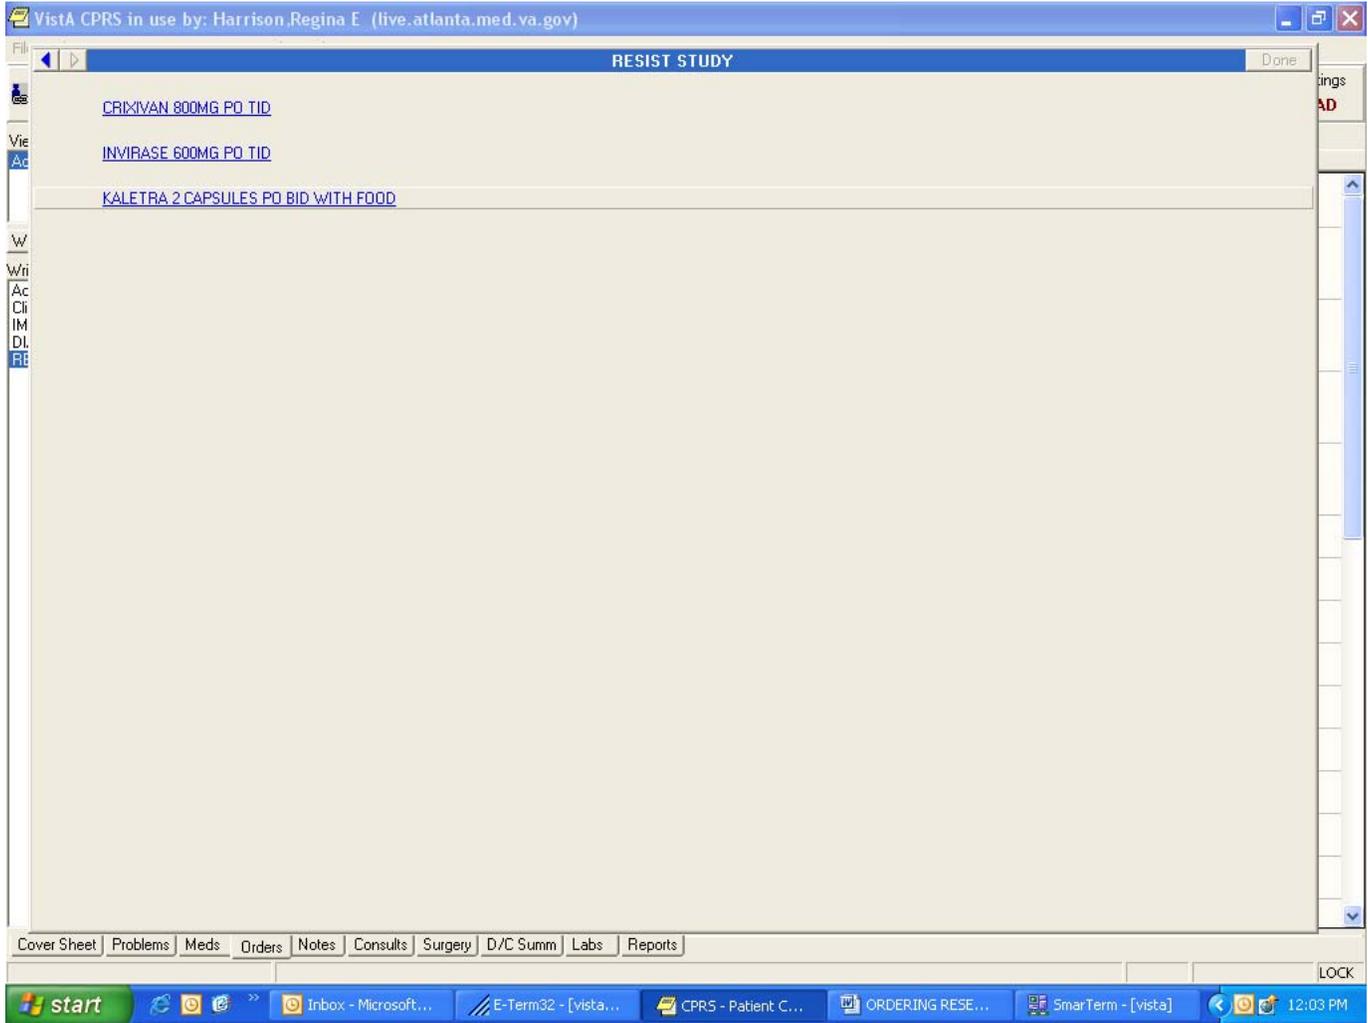

The screenshot shows a VISTA CPRS Medication Order window for "RESIST 1 STUDY (KALETRA) CAP. ORAL". The window is titled "Medication Order" and contains the following information:

Dosage	Complex	Route	Schedule
