

Data Analytics Core – Cost Recovery Schedule

Initial Consultation – No Cost

The DAC encourages users to have an initial consultation to determine the needs of the request.

Services Tied to Award Submissions: These are tied to budgets of proposed awards and should be included in the budget after discussion with the DAC Director. Percentages are based on the effort of the Director of the DAC:

Non-Human Studies: 5% in the initial and subsequent years. 10% in the final year.

Human Studies: 10% in the initial and subsequent years. 20% in the final year.

Services Tied to already funded awards: this fee schedule is for projects that have already received funding and did not include DAC services. Costs are based on support at different levels from the DAC.

Estimated Cost for Common Requests:

Service	Non-Federal Funding
Power Analysis	\$500
Database Development	\$2,000
Database Extraction	\$1,000
Manuscript/Poster development*	
Tier 1 – Simple	\$500
Tier 2 – Standard	\$1,000
Tier 3 – Complex	To be discussed

* Data analyses for manuscript/posters will be conducted by Biostatistics students under the supervision of DAC members.
